THE UNIVERSITY OF TEXAS
MD ANDERSON
CANCER CENTER

The mission of the Indo American Chamber of Commerce of Greater Houston is to make sure the commercial ties between India and the United States are cultivated and grown and to unite our cultures by bringing resources, education and an awareness of India to our community.

The University of Texas M. D. Anderson Cancer Center faculty continue to collaborate with colleagues in India at the Tata Memorial Centre in Mumbai, the All India Institute of Medical Sciences in New Delhi and Vivekananda Yoga Anusandhana Samsthana in Bangalore. We also share in an international research conference each year, most recently in Trivandrum. It is through these international exchanges that our shared goals will be achieved: progress towards curing and preventing cancer, and progress towards increasing cultural understanding and collaboration.

Best wishes,

John Mendelsohn, M.D.
President
